

# scantech<sup>™</sup> ST-1402 BT Barcode Scanner

## FEATURES

1. ST-1402 Mini Blue tooth CCD barcode scanner is a small and light weight device.
2. It ergonomically designed for portable use. With hand size design allow users easy to carry in the workplace.
3. Adopt 620nm Red light CCD Imaging Technology and intelligent image identification system.
4. Reads all normal 1D barcodes.
5. Reads barcodes on PC and Mobile Phone displays.
6. Integrated high performance processor and decoding board, has fast decoding and high-precision reading ability and high anti-interferebce ability.

## SPECIFICATION

|                                |   |
|--------------------------------|---|
| Wireless transmitting distance | 15-20M  |
| Optical Source                 | 620nm Visible red light diode                             |
| Imaging Sensor and Resolution  | CCD and 2500 Peixel                                       |
| Reading Precision              | >5mil   |
| Depth of Field                 | 0-150mm for code 39 10mil and 0-40mm QR Code 8mil         |
| Decoding Speed                 | 280 times/second  |
| Dimension                      | (L)75.4 × (W)38.5 × (H)26mm                               |
| Net Weight                     | 61g   |
| Input Voltage                  | DC 5V   |
| Current and battery            | 150mA and 6000mah   |
| 1D Barcode                     | UPC/EAN with supplementals, Code 128,39,93, MTF, ITF etc. |
| IP Rating                      | IP 52   |
| Operating Temperature          | 0°C to 50°C   |
| Storage Temperature            | -40°C to 60°C   |
| Safty Approval                 | RoHS, CE etc.   |
